

Serial No. 09/704,050  
February 14, 2002

**IN THE CLAIMS:**

Please ~~add~~ the following new claims:

--177. (New) The method of claim 1, wherein at least one of said respective client node being in communication with said remote file server node over at least one wireless communications link.

178. (New) The method of claim 1, wherein said step (a) further comprising the step of:

B1  
cm.x  
(a1) connecting at least one of each said client node to said remote file server node via the Internet, wherein said at least one client node connects to the Internet via a wireless channel.

179. (New) The method of claim 178, wherein each of said at least one client node is a mobile client node.

180. (New) The method of claim 46, wherein at least one of said respective client node being in communication with said remote file server node over at least one wireless communications link.

181. (New) The method of claim 46, wherein said step (a) further comprising the step of:

(a1) connecting at least one of each said client node to said remote file server node via the Internet, wherein said at least one client node connects to the Internet via a wireless channel.

182. (New) The method of claim 181, wherein each of said at least one client node is a mobile client node.

183. (New) The method of claim 77, wherein at least one of said respective client node being in communication with said remote file server node over at least one wireless communications link.

184. (New) The method of claim 77, wherein said step (a) further comprising the step of:

(a1) connecting at least one of each said client node to said remote file server node via the Internet, wherein said at least one client node connects to the Internet via a wireless channel.

BI  
cm. 185. (New) The method of claim 184, wherein each of said at least one client node is a mobile client node.

186. (New) The system of claim 89, wherein at least one of said respective client node being in communication with said remote file server node over at least one wireless communications link.

187. (New) The system of claim 89, wherein at least one of each said client node is connected to said remote file server node via the Internet, and wherein said at least one client node connects to the Internet via a wireless channel.

188. (New) The system of claim 187, wherein each of said at least one client node is a mobile client node.

Serial No. 09/704,050

189. (New) The system of claim 134, wherein at least one of said respective client node being in communication with said remote file server node over at least one wireless communications link.

190. (New) The system of claim 134, wherein at least one of each said client node is connected to said remote file server node via the Internet, and wherein said at least one client node connects to the Internet via a wireless channel.

*B1  
cancel*  
191. (New) The system of claim 190, wherein each of said at least one client node is a mobile client node.

192. (New) The system of claim 165, wherein at least one of said respective client node being in communication with said remote file server node over at least one wireless communications link.

193. (New) The system of claim 165, wherein at least one of each said client node is connected to said remote file server node via the Internet, and wherein said at least one client node connects to the Internet via a wireless channel.

194. (New) The system of claim 193, wherein each of said at least one client node is a mobile client node.--
